Our patented and award-winning technologies even allow for real-time manipulation of live broadcasts. Our innovative solutions in the area of offline and real- time video compositing, remove the border between reality and fiction.

Founded in 2011, fayteq is a dynamic and fast growing company in the technology sector. fayteq offers an inspiring environment for great people working on breathtaking new technologies leading to the most advanced products and extraordinary experiences. fayteq headquarters and development division are located in Erfurt, the capital of Thuringia, right in the center of Germany.

For expanding our teams in Erfurt and Berlin we are seeking creative

# Application Software Engineers

holding a degree in applied computer science, software engineering, or similar subject. You provide a comprehensive background in application development, in particular using C++. Further, you have profound experience in one or several of the following areas:

- Image and video editing
- Realization of graphical user interfaces
- Development of 3rd party plugins

Additionally you are fluent in English (speaking and writing). You can demonstrate working results autonomously, provide sophisticated communication skills, and the ability to work in teams.

Join our application development team for integrating groundbreaking technologies into next generation products and designing unique and intuitive user interfaces for interactive experiences. As application software engineer you will participate in the development of our next generation software suites and plugins. Your duties will include the integration of new technologies, the design, realization, and testing of innovative user interfaces, the provision of custom-specific solutions and extensions, as well as the adaptation of existing solutions to new environments.

For questions regarding the vacant position, please contact us at career@fayteq.com

Please send your application (in German or English) including your CV, references, and copies of all relevant documents as PDF by email. Supplementary material illustrating your track record is most welcome. Please clearly state your earliest possible date of employment when applying.
